Keeping up with the rapidly changing world of technology is no easy task. Yet, few tasks can be as critical to your company’s success. Kirkwood Training & Outreach Services offers comprehensive computer and technology training to give your employees the edge they need to stay ahead.

Our offerings include training for all levels of your organization, from the computer novice to the IT professional:

- Analysis and Design
- Databases
- Graphics and Desktop Publishing
- Internet
- Mainframe
- Midrange and Client Server
- Networking and Communications
- Operating Systems
- Programming Languages
- Spreadsheets
- Web Page Development and Administration
- Word Processing

Courses can be customized to meet your organization’s specific needs. Training may be scheduled during the workday, in the evening or on weekends. You can even decide where the training will take place, from on-site training at your facility to one of our fully equipped computer training centers in the Cedar Rapids and Iowa City metro areas.
