Industrial and manufacturing settings are rapidly changing as a result of technological innovation. What that means for companies is that there’s a dramatic increase in the demand for a technically skilled workforce.

At Kirkwood Training & Outreach Services, we’ll provide you with the in-depth instruction, customized curriculum and hands-on experience designed to help develop and expand employee skills.

Specific, practical courses cover a wide range of technical applications such as:

- Assessment/Testing
- AutoCAD
- Blueprint Reading
- CNC Machining
- Contractor Safety Testing
- Electrical/Mechanical Technician Training
- Geometric Dimensioning and Tolerancing
- Hydraulics
- Industrial Maintenance
- Industrial Math
- Industrial Rigging/Forklift Operations
- OSHA and Safety Training
- Programmable Logic Controllers
- Troubleshooting
- Welding and Weld Test Certification
