

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
TOTAL Grants and Contracts		\$8,699,123	\$21,654,676		
US Corporation for Public Broadcasting		\$27,874	\$41,809		
Media Technologies – Brian Watkins, Contracts Administrator	Dennis Green	\$27,874	\$41,809	10/1/04	6/30/05
Cedar Rapids-Iowa City has almost become the HD Radio capital of the mid-west, perhaps even the entire country. Two commercial stations in the market are already transmitting IBOC, with two public stations in Iowa City soon to follow suit. In Cedar Rapids-Iowa City, digital conversion is vital to remaining competitive in a community of early adopters. As a unique programming service in our community of license and the entire state of Iowa, KCCK must convert at or near the same time as the other commercial and public stations in our market in order to maintain and enhance our public service. KCCK will convert to digital in a speedy, economical fashion using Z-5CD conversion materials and installation; digital exciter; HD processor; racks, lines and wires; an HD receiver, et cetera.					
US Department of Agriculture			\$40,000		
Agriculture Geographic Information Science Learning Application Center-Gregory Smith, Program Officer	Terry Brase	No cost extension	\$40,000	7/1/02	12/31/05
Kirkwood Community College, Parkland Community College and SST Development Group, with the assistance of Ridgewater Community College and Southwest Wisconsin Technical College, have formed the Agriculture Geographic Information Science Learning and Application Center at AgrowKnowledge. The goal of the Learning and Application Center is to provide community college graduates with advanced geospatial analytical skills and knowledge needed for employment in the rapidly changing high technology Precision Farming Industry. This project was subcontracted to Purdue University when SST Development Group reorganized, and subsequently subcontracted to Parkland College in 2004. Objectives are: 1. To develop two courses in geographic information science practices. 2. To increase faculty-teaching competencies for all AgrowKnowledge partner community college's teaching new courses through workshops, teaching aids and technical assistance. 3. To facilitate interaction among community colleges and the Precision Agriculture Industry through the AgrowKnowledge national infrastructure and its industry-partner SST Development Group.					
US Department of Education		\$319,351	\$1,366,127		
Student Support Services (TRIO)	Chuck Hinz	\$263,179	\$1,141,439	9/1/01	8/31/05
Since 1982, Kirkwood has received this 4 year grant aimed at retaining academically disadvantaged, low-income, first generation and physically handicapped students. It provides counseling, peer tutoring, cultural activities, academic support, study skills assistance, a mentoring program, and transfer counseling to eligible students. The project serves the highest risk students at the college and currently enrolls 175 at-risk students each year.					

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
CCAMPIS					
Kirkwood Kids-Kirkwood Cares – Antoinette Clark-Ross, Program Officer	Kathleen Van Steenhuyse	\$56,172	\$224,688	9/16/02	9/15/06
KCC serves low-income students with this Child Care Access Means Parents In School (CCAMPIS) grant that creates a full-time curriculum coordinator position from a position that was part-time; moves a part-time teaching position to full-time to cover additional operational hours required to serve a growing Kirkwood student enrollment that attends classes early in the day and later in the afternoon; and allocates 52 percent of the grant funds to aid low-income students who qualify for childcare assistance using a sliding fee scale. More than half of Kirkwood's students currently qualify as low-income. These improvements will bring Kirkwood closer to meeting state certification requirements for daycare providers.					
US Department of Health and Human Services		\$774,199	\$2,526,000		
Centers for Disease Control (CDC)					
National Mass Fatalities Training and Response Center – Ron Burger, Program Officer	Doug Feil	\$474,199	\$1,926,000	9/30/01	9/29/05
Kirkwood is offering four Mass Fatalities Planning and Response Conferences enrolling a minimum of 200 emergency managers, law enforcement personnel, medical examiners, public health and mental health professionals. The Institute is developing an online Mass Fatalities Plan Development Course designed to help communities customize the Mass Fatalities Response Plan to fit local needs and conditions. Plans are being developed for 40 communities or regions by the end of the project year. Awareness presentations are being made at a minimum of three conferences including the annual conference of the American Association of Community Colleges, the League of Innovation in the Community College and American Board of Funeral Service Education. Over the course of the year, the Institute will be developing a National Mass Fatalities Digital Library cataloging plans and information for communities responding to and recovering from a mass fatalities incident. At the end of the year, the library will hold over 100 documents and plans. The library will have 50 web links to related sites and services.					
Partnerships in Implementing Patient Safety (PIPS) – Patient Safety Agency - Healthcare Research/Quality, Dr. James Levett, Principal Investigator	Rebecca Palmer	\$300,000	\$600,000	6/1/05	5/31/07
This cooperative project between Kirkwood, four local health-care providers (Physician's Clinic of Iowa, P.C. (PCI), St. Luke's Hospital, Mercy Medical Center, and Cardiologists, PC.), Wellmark Blue Cross/Blue Shield of Iowa, and Delta Group (risk management assessment) will create a community model of care delivery and patient safety using ISO 9001 (International Organization for Standardization) management principles as a framework for cooperation. The project has three specific aims: (1) Provide training to local health-care professionals in the ISO 9001 quality management system; (2) Based on the ISO 9001 framework, establish an anticoagulation clinic and use evidence-based practice guidelines to improve the safety and management of patients on warafin (Coumadin) therapy; (3) Determine other uses of the ISO 9001 framework in the Cedar Rapids health-care community. This project will create a model of patient care and cooperation, and address opportunities to develop health-care delivery systems in a competitive environment.					

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
US Department of Homeland Security					
Agroterrorism Preparedness Center – Office of Domestic Preparedness (ODP)	Doug Feil	\$1,211,090	\$3,229,572	10/1/04	9/30/06
Over a two-year period, the Agroterrorism Preparedness Center at Kirkwood Community College will successfully deliver scenario-based prevention, deterrence, response and recovery courses and support the nation's first responders and their training officers using the instructional capability of (1) the 100-member Community College Consortium for Health and Safety Training (CCCHST), funded by NIEHS since 1992 to deliver hazardous materials training, (2) the AgrowKnowledge Center, funded since 2001 to support the nation's agriculture technology instructors, and (3) a national clearinghouse and accessible database of relevant, just-in-time information. Curriculum will be ODP-approved and available electronically.					
US Department of Justice					
Hazard Response Technology Training (HaRT) – Jan Carey, Program Officer	Pat Berntsen	\$993,499 *earmark	\$1,986,999 *earmark	8/1/03	6/1/05
Grant funds will train a minimum 3,000 community responders in terrorism awareness, incident response, and incident management featuring the use of a hazard information data management and retrieval system developed for training and response purposes. Hazard Response Technology (HaRT) will be developed using a web-based library of juried references. HaRT will allow trainers and responders to make web-based queries of collected resources on chemical, biological, and nuclear hazards prior to responding to a terrorist or other hazardous incidents.					
US Department of Labor					
Information Technology Career Edge Academy Programs (IT-Career Edge Academy) - H1B 75% - Lance Potts, Program Officer	Lynn Fraker	\$227,519	\$728,060	10/1/02	10/1/05
The Information Technology Career Edge Academy Programs (IT-Career Edge) address regional employers' critical information technology (IT) workforce needs through increased technology-based education and training of high school students through Kirkwood's Information Technology Career Edge Academy programs, providing 565 area high school youth a career ladder into high-paying, high-demand, and high-technology employment. Kirkwood in partnership with 18 area high schools, The Workplace Learning Connection, Region 10, Iowa Workforce Development, and regional employers will build a sustainable workforce for the region's burgeoning information technology economy through this 24 month project. In partnership with regional employers and 16 "traditional" and two "alternative" area high schools, Kirkwood will develop a new high school career academy called, "Information Systems Management." The purpose of the ISM Academy is to supplement area high school business education programs with technology-enhanced applied business education curriculum and workplace learning experiences. Two hundred scholarships, awarded over two years, will be provided to qualifying student participants to bridge the IT-Career Pathway gap between high school-to-college, and participating area high school teachers will be provided training and on-going support.					
Susan Harwood Training Grant Program (DOL)	Doug Feil	\$187,533	\$250,044	9/30/04	9/30/05
This program is designed to enhance the curriculum for warehouse worker safety training. The design will include 25 interactive learning stations that will depict, in both English and Spanish, unsafe work conditions as well as safer solutions. Students will design a text-based guide for the unit, and usage will be tracked using a student Web site.					

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
National Emergency Grant					
WIA/WDC Norwood Promotional Products	Kim Johnson	\$66,488	\$132,975	12/1/03	11/30/05
Funding serves dislocated workers who were affected by the closure of the Norwood Promotional Products plant in Washington, IA. The funds help individuals transition into the workforce through work search, on-the-job training, relocation services, support, and training.					
US Environmental Protection Agency					
104(g) Operator Outreach – Training and Assistance – Rao Surampalli, Program Officer	Doug Feil	\$13,125	\$26,250	10/1/04	9/30/06
Kirkwood's CRTC will identify 13 Publicly Owned Treatment Works (POTWs) in small communities that are having problems meeting their effluent criteria and bring as many of these facilities as possible, into compliance via onsite Operations Management Evaluations, technical assistance and training. The will also continue to work toward developing an effective overall statewide training program to ensure municipal facilities permit compliance. Kirkwood's CRTC will work with other funded agencies to develop onsite wastewater vulnerability training and to provide the training to public and private facilities in the eastern one-third of the state, They will provide assistance for up to 10 new systems in the State of Iowa. Assistance includes conducting vulnerability assessments; identifying immediate security concerns; providing information on the availability of resource materials; developing appropriate security programs; and planning the allocation of resources for long-term security.					
104(g) Operator Outreach – On-site Security Assistance – Rao Surampalli, Program Officer	Doug Feil	\$11,250	\$22,500	10/1/04	9/30/06
The project provides one-on-one onsite training and technical assistance for small publicly owned water/wastewater plants that have compliance problems. Diagnostic evaluations determine site-specific training.					
US Small Business Administration (SBA)					
National Mass Fatalities for Funeral Directors, Carol Greenfield, Grants Management Officer	Doug Feil	\$103,124 earmark	\$494,739 earmark	9/1/04	8/30/09
Over a five year period and through a national network of educational institutions and professional organizations, funeral service students and funeral home directors from across the country will be certified to help their communities plan for, respond to and recover from mass fatalities incidents through an online 50-hour Mass Fatalities Preparedness certification program for Funeral Service students and funeral home directors designed by Kirkwood.					
National Science Foundation					
STEPs to Bridge the Way (NSF)	Bob Driggs	\$98,815	\$499,960	10/1/04	9/30/09
Offers students a seamless transition from high school to community college and on to a four-year degree program.					

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
AgrowKnowledge: The National Center for Agriscience and Technology Education (NSF)	Terry Brase	\$766,608	\$2,999,947	7/1/04	6/30/05
<p>The National Science Foundation funded Kirkwood Community College and eighteen Agriculture Technology Education teams across the nation to operate AgrowKnowledge. The goal is to form a self-sustaining national alliance of two-year colleges working in collaboration with agriculture business, industry, education, professional associations and government to prepare a quality 21st century technical workforce that drives the most efficient and sustainable food and fiber production in the world. The teams are supported by an Industry Council lead by John Deere and Pioneer Hybrid, and a University Council of five members including Purdue, Iowa State, Mississippi State, U.C. Davis, and Michigan State. AgrowKnowledge will (1) identify career pathways and curriculum models that support articulation in select agriculture technology fields, (2) help develop secondary and post-secondary faculty skills needed to teach advanced technology subjects, and (3) help recruit and retain non-traditional students and provide other capacity building activities for educational institutions with agriculture technology programs across the country. This national partnership defines new and emerging agriculture technology careers, identifies the knowledge and skills needed to succeed in these selected agriculture careers, and agrees upon common courses of study and the educational standards supporting these studies. The national partnership supports the development of mathematics, science and technology programs and courses that are institutionalized by the eighteen Agriculture Technology Education Teams, and then implemented by many other two-year programs in the nation.</p>					
Technology Scholars Program – Dr. Duncan McBride, Program Officer	Daryl McCall/Bob Driggs	\$100,000	\$400,000	7/1/02	6/30/06
<p>The NSF Technology Scholars Program provides scholarships up to \$3,125 per year for four years for academically talented, financially needy students who are interested in the Computer Science, Engineering and Mathematics (CSEMS) fields of study. The program emphasizes the importance of recruiting students to high technology disciplines, mentoring and supporting students through degree completion, and partnering with industries to facilitate student career placement in the high tech workforce.</p>					
Terrorist Agent Control Technology (TACT) – Gerhard Salinger, Program Officer	Doug Feil	\$153,531	\$459,932	10/1/2003	9/30/06
<p>Kirkwood, along with partner institutions, St. Louis University, the University of Tennessee and the NSF AgrowKnowledge Center applies principles of physics, biology and chemistry to control biological, chemical and nuclear agents that threaten the security of the workplace and the environment. Three (3) three-credit hour courses are being developed for national dissemination. The three courses being prepared are: 1) Biological, Chemical and Nuclear Agents, 2) Threat Assessment and Detection, and 3) Contingency Planning and Engineering Controls. Agriculture and Environmental, Health and Safety Instructors will be trained to use materials.</p>					

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
National Institute of Environmental Health Sciences (NIEHS, SBIR)		\$966,464	\$3,463,183		
HaRT Training Innovation, Cytelix, Inc., - Ted Outwater, Project Official (Subcontract)	Hans Gijsbertsen	\$33,000	33,000	5/1/05	4/30/06
Cytelix, Inc. in collaboration with the Hazardous Materials Training Institute (HMTRI) at Kirkwood Community College will undertake the Hazard Response Technology (HaRT) Case Study Training Innovation Project. The goal of the HaRT Training Innovation Project is to construct an Expert System with dynamic E-Tools and Semantic Web search capabilities to standardize hazard response case study knowledge collection and retrieval for Hazard Response Training enhancement in supporting the needs for the chemical emergency responders and skilled support personnel community. Objectives of the HaRT Training Innovation Project are to: Develop the needed methodology, which will integrate the capabilities of Cytelix's existing semantic Web technology to the company's existing LogicNet Expert System and dynamic collaborative sharing, and E-work tools. Construct the web-based prototype for the HaRT Case Study database, which integrates dynamic collaborative sharing, and E-work, and Semantic Web content search and retrieval capabilities. Pilot the HaRT Case Study prototype and methodology executed by Kirkwood Community College, Hazard Materials Training and Research Institute, and the Community College Consortium for Health and Safety Training.					
Worker Health and Safety Training for the DOE Nuclear Weapons Complex Cooperative Agreement – Chip Hughes, Program Officer	Pat Berntsen	\$222,487	\$935,615	9/1/01	8/31/05
NIEHS funds through the Department of Energy to provide hazmat training at DOE facilities through HMTRI and partners. The University of Tennessee, contractor at the Oakridge Laboratory, is a subcontractor. Aiken Technical College, SC and Amarillo Community College, TX, are unfunded partners.					
Worker Health and Safety Training Cooperative Agreement (HWWT) – Chip Hughes, Program Officer	Pat Berntsen	\$710,977	\$2,494,568	9/1/00	8/31/05
NIEHS funding supports the Community College Consortium for Health and Safety Training (CCCHST) sponsored by HMTRI/Kirkwood. It is funded for five years. HMTRI will provide initial instructor training to 30 new CCCHST instructors at Kirkwood Community College. Following successful completion of the two-week "Train-the-Trainer" program, referred to as the GreatEST (Great Environmental Safety Trainers') Institute, instructors are provided a one-year license to use HMTRI Waste Site Worker, and related textbooks at no additional cost. The grant supports three-day refresher training for 80 instructors. Refresher training is held in conjunction with regional PETE conferences at Kirkwood Community College and in other regions. Members receive a small reimbursement for the number of students trained.					

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
State, Local, and Association Grants and Subcontracts		\$2,577,832	\$2,986,579		
<u>ALO - USAID</u>					
Association Liaison Office (ALO – USAID) for University Cooperation in Development, Entrepreneurship and Workforce Development in Higher Education — Marilyn Crane, Program Officer	John Halder	\$60,933	\$140,514	4/1/04	12/31/05
This project is a partnership between the Polytechnic of Namibia, Colleges for International Development, Inc (CCID), and Hinds Community Colleges (HCC). The project will “build human capacity through education and training” and will strengthen “the contribution of host-country institutions of higher education to sustainable development.”					
<u>Grant Wood Area Education Agency</u>					
Vocational Individualized Training and Learning (VITAL) — Lyle Cannon, Program Officer	Chuck Hinz	\$305,360	\$305,360	7/1/04	6/30/05
Kirkwood provides programs and support for vocational/technical students who have an individualized education plan because of a disability. Funds support: 1. Physical facilities to house the instructional programs. 2. Management of student applications, records and transcripts. 3. Program completion activities including access to job placement services, referral to community adult service providers, and/or referral for further postsecondary training. 4. A developmental education instructor.					
<u>Humanities Iowa</u>					
Jazz Appreciation Month – KCCK/FM — Megan Paik, Grants Director	Dennis Green	\$2,000	\$2,000	4/1/05	4/30/05
During April Jazz Appreciation Month, KCCK will produce a series of profiles of Jazz greats with Iowa roots or connections. Subjects will include Bix Beiderbecke, Glenn Miller, Art and Addison Farmer, and many others.					
<u>Iowa Arts Council</u>					
EZ Performing Artist Grant – KCCK/FM — Linda Lee, Program Officer	Dennis Green	\$500	\$500	4/23/05	4/23/05
KCCK-FM’s “Jazz at Riverside – The Music of Nat King Cole,” was held Saturday evening, April 23 at Riverside Theatre in Iowa City. 130 people attended, filling Riverside Theatre to capacity. IAC artist Dan Knight was joined by the Don Blew trio, led by Ottumwa’s guitarist Don Blew, once one of the nation’s most respected jazz guitarists. The program featured the music of Nat King Cole, whose success as a pop singer somewhat overshadowed his extensive prowess as a jazz pianist.					
<u>Iowa Department of Corrections</u>					
Iowa Medical Classification Center – Anamosa State Penitentiary (IMCC)	Kay Nebergall	\$116,013	\$116,013	7/1/04	6/20/05
The contract for IMCC is \$116, 013 for GEC classes and tutoring.					

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
Iowa Medical Classification Center – Anamosa State Penitentiary (ASP)	Kay Nebergall	\$88,942	\$88,942	7/1/04	6/20/05
The contract for ASP is \$88,942 is for GEC classes and tutoring.					
<u>Iowa Department of Economic Development</u>					
Career Link – Michael Blouin, Director	Kim Johnson	\$284,500	\$569,001	6/1/04	6/1/06
This is an industry-driven, just-in-time program to train qualified customer service agents to work in a call-center setting. The project includes planning, curriculum development, training, student assistance, and a marketing plan. The project is based on the successful CCTP initiated in 1998 and concluded in 2003. Kirkwood will administer the new CCTP through its Skills-To-Employment division, and provide pre-employment training to 150 low-to-moderate income persons (earning between 25% and 50% of Linn county median income) in Linn County. In addition to industry partners, Kirkwood will work with TeleSolutions Consulting, LLC – a full-service training and consulting firm specializing in the customer contact industry. Training will be conducted in partners’ customer contact centers, and will address: 1) specialty skills; 2) essential and technical skills; 3) job obtainment; 4) job transition; and 5) job retention. “Essential and technical skills” include” team-building, customer service, problem-solving, writing, and computer applications. Project goal: 88% of program graduates will find employment with a 78% job retention rate.					
Iowa Waste Exchange — Matt Rasmussen, Project Director	Kim Johnson	\$72,000	\$72,000	7/1/04	6/30/05
This program encourages industries to reduce the volume of waste going into landfills by identifying and publicizing waste products that can be exchanged or recycled.					
<u>Iowa Department of Education</u>					
Adult Basic Education Program – John Hartwig, Program Officer, Iowa Dept of Education	Dave Bunting/Kay Nebergall	\$416,097	\$416,097	7/1/04	6/30/05
It is predicted that the Kirkwood Community College English Literacy (EL) program serves over 800 adult learners during fiscal year 2002. The program has experienced growth among its beginning, intermediate-low, and intermediate-high levels, levels, which may be a result of increased enrollment (unduplicated student headcount) and/or more effective placement based on scores from the CASAS English as a Second Language Appraisal. The majority of English Literacy learners attend structured classes offered in Cedar Rapids, Iowa City, and Kalona. Students enrolled in these classes represent a variety of nationalities, especially Mexico, China, Korea, Bosnia and several African Nations.					
Mine Safety Health Administration (MSHA),— Dale Gruis, Consultant, Department of Education	Jeff Mitchell	\$108,578	\$108,578	10/1/04	9/30/05

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
Under Mine Safety and Health Administration (MSHA) Part 46 regulations, safety training is required for new miners, newly employed experienced miners and miners assigned to a task at which they have no previous experience. In addition, all miners must receive annual refresher training. A system in place in Iowa efficiently and inexpensively delivers some of this training, helping that state's aggregate producers comply with new regulations. Curriculum program topics include miner safety awareness, confined spaces, haulage, job safety analysis development, substance abuse, heavy equipment safety, machine guarding, ground control, water safety, electrical safety, first aid/CPR, required subjects and other associated safety topics.					
Perkins III – Dr. Jerda Garey, Program Officer, Iowa Dept. of Education	Chuck Hinz	\$778,627	\$778,627	7/1/04	6/30/05
The purpose of the Carl D. Perkins Vocational and Technical Education Act of 1998 is to develop more fully the academic, vocational, and technical skills of secondary students and postsecondary students who elect to enroll in vocational and technical education programs by: 1. building on the efforts of States and localities to develop academic standards; 2. promoting the development of services and activities that integrate academic, vocational, and technical instruction, and that link secondary and postsecondary education for participating vocational and technical education students; 3. increasing State and local flexibility in providing services and activities designed to develop, implement, and improve vocational and technical education, including Tech Prep education; and 4. disseminating national research and providing professional development and technical assistance, that will improve vocational and technical education programs, services, and activities.					
Tech Prep – Jim Flieler, Program Officer, Iowa Department of Education	Dave Bunting/Kay Nebergall	\$95,004	\$95,004	7/1/04	6/30/05
Tech Prep in Area 10 is a regional partnership that integrates the goals of Tech Prep, School-To-Work, and Regional Planning with school improvement. The partnership includes all school districts in Area 10, Grant Wood Area Education Agency, Kirkwood Community College, labor, chambers of commerce, Iowa Workforce Development, business, juvenile corrections, and transition. Tech Prep (Carl D. Perkins federal vocational funds) supports the development, improvement and support of Career Edge Academy programs. This includes faculty training to teach in an academy program, creating work-based learning experiences for academy students, marketing academy programs, and purchasing materials and equipment to support Career Edge Academies.					
Regional Interpreter Training Partnership – Johnson County Community College (OSERS) — Heather MacLaren, Project Director	Linda Krog	\$5,000	\$5,000	10/1/04	9/30/05
This is a cooperative agreement between Kirkwood and the Regional Interpreter Training Partnership, Johnson County Community College, for the delivery of the Training of Interpreters who is Deaf or Hard of Hearing and Individuals who are Deaf-Blind Program.					
Iowa Department of Natural Resources					
Basic Water Treatment Course — Valerie Drew, Program Officer	Doug Feil	\$1,861	\$25,000	6/1/04	7/31/05
Contract between Kirkwood and the Iowa Department of Natural Resources for the purpose of reimbursing Kirkwood for the cost of their entry-level classroom instruction to water supply operators who have passed the Iowa Water Treatment Operator Grade 1 exam.					

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
Basic Training Water Treatment Distribution Course Reimbursement — Valerie Drew, Program Officer	Doug Feil	\$12,500	\$25,000	1/1/05	12/31/06
Contract between Kirkwood and the Iowa Department of Natural Resources for the purpose of reimbursing Kirkwood for the cost of their entry-level classroom instruction to water supply operators who have passed the Iowa Water Treatment Operator Grade 1 exam.					

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
Solid Waste Alternatives Program, Agricultural Composting Project — Valerie Drew, Program Officer (SWAP)	Jerry Bolton	\$22,326	\$46,526	6/1/04	6/30/05
The AC Project will expand Kirkwood's on-site composting facility to accommodate the composting of large volumes of liquid, highly nitrogen based, swine waste, and solid, highly carbon based pine-shaving equine bedding waste.					
Iowa Public Television (IPT)					
Region 10 Regional Telecommunications Council – John Haack	Wendell Maakestad	\$109,683	\$109,683	7/1/04	6/30/05
SF 2298 provides for funding of various activities at the regional level to support all education users of the Iowa Communications Network (ICN). Funds are allocated to the public broadcasting division (Iowa Public television) of the department of Education. Regional Telecommunications Councils (RTCs) will plan for and expend these funds based upon the activities outlined in legislation. The regional telecommunications councils will use the funds to provide technical assistance for network classrooms, planning and troubleshooting for local area networks, scheduling of video sites, and other related support activities.					
Iowa State Fire and Emergency Response Council					
Fire Ground Improvement at Kirkwood Community College – Randy Novak, Bureau Chief, Fire Service Training Bureau	Bob Downs	\$6,250	\$6,250	3/1/05	9/1/05
In order to upgrade the burn building structure on its fire ground, Kirkwood Community College requests one-time funding to: 1) replace two components of the structure containing the class A burn area and electrical fire burn area; 2) install new insulation; 3) replace the LP-fired burn site in the structure.					
Iowa State University					
Small Business Compliance Alliance Program (SBCA), Kirkwood SBDC, – Steve Sprague, Regional Director	Steve Sprague	\$54,000	\$54,000	7/1/04	6/30/05
The US Small Business Administration and the State of Iowa have granted appropriations to Iowa State University for the provision of a statewide small business assistance program (Iowa Small Business Development Center).					

Grant Activity FY05 (7/1/04 – 6/30/05)
Grants and Contracts in Operation During FY05

Grants and Contracts in Operation During FY05	KCC Project Director	Annual Funding	Total Award Amount	Grant Start Date	Grant Expiration Date
<u>League for Innovation</u>					
League for Innovation, Distance Learning — Project SAIL (Specialty Asynchronous Industry Learning) Phase II — Stella Perez, League for Innovation	Doug Elam	\$5,000	\$5,000	7/1/05	6/31/06
The League for Innovation in the Community College, with support from the Alfred P. Sloan Foundation, is launching Project SAIL (Specialty Asynchronous Industry Learning) to support the growth and maturity of online learning options. Through a network of colleges and industry partners, Project SAIL aims to create a national marketplace promoting access, exchange, and dissemination of specialized industry-driven programs anywhere and anytime for community college students. Kirkwood's ET-Online will be promoted.					
<u>Partnership for Environmental Technology Education (PETE)</u>					
Online Training Course for Wet Weather Municipal Treatment Plant Operation Project – Kirk Laflin, Program Officer	Doug Elam	\$20,158	\$20,158	11/1/04	8/31/05
Development, hosting, and maintenance of an online training course for Wet Weather Municipal Treatment Plant Operation as a sub-contractor of PETE for a project with the New England Interstate Water Pollution Control Commission (NEIWPCC) on behalf of the State of New York Department of Conservation who developed the original course materials under a grant with the U.S. Environmental Protection Agency.
