Peer and Self Evaluations

Using the following form, rate yourself and your teammates using the indicated criteria. You will be asked to submit a second form at the end of the project, and both of these will be used in calculating your final grade. Your self-evaluation is worth 10% of the grade (20 points) and peer evaluations are worth 30% of the grade (60 points). Your peer evaluation grade will be calculated by averaging the evaluations from all of your teammates. If you do not fill out evaluations, you will get no points for self-evaluation, and will lose 10% of the peer evaluation grade.
