Parent child allocation factors

The Student Financial Aid survey report submitted under this UnitID is a combined report that includes distributions listed below. Because this is a combined report, you must provide allocation factors that indicate how the distributions are to be allocated among all included institutions. Allocation factors are percents. The allocation factors you provide will create derived variables for the IPEDS Peer Analysis System to allocate reported data to each component location. The 2004-05 allocation factors are those that were provided by your institution when contacted by the IPEDS Help Desk in December 2005 and January 2006. The method used to arrive at these factors was Submitted by parent institution. Enter allocation factors in the spaces provided; use whole numbers only. Percents must add to 100%. You may leave blank. You will not be able to lock your data if this section is not completed.
