### KQIP Learning Technologies Team Update

#### Action Steps
- Develop a training center
- Provide full-time trainer
- Build awareness of training options
- Provide training sessions and workshops
- Evaluate effectiveness
- Purchase database software and begin input
- Complete application and planning for Tech Scouts program
- Develop the process to identify, investigate, evaluate, implement and support emerging learning technologies
- Identify faculty and staff to investigate e-portfolios
- Administer follow-up survey for comparative data

#### April 2006 Update
- The new training room in the KCELT area is complete.
- Bonnie Cackoski is the full-time trainer.
- Notification for sessions is run in eTempo and listed on the KCELT website, and mailed to the department.
- Bonnie offers several sessions each week.
- Bonnie keeps records on the effectiveness of attendees at the Sessions.
- The database project is one of many projects underway with the new Executive Director of IT.
- The first set of Tech Scouts began in January and will continue through next academic year. Responsibilities for the Tech Scout process was handed to the Learning Technologies Committee as part of their reorganization.
- The Learning Technologies Committee, with input from the Tech Scouts and others, have undertaken these responsibilities.
- The technologies are rapidly changing in these areas and at least one of the Tech Scouts will take on this project.
- Due to changes in technology and in the leadership of IT, the team asked that Jon Neff, with the help of the Learning Technologies Committee run a survey to follow up.
