注： Intermediate Algebra credits, MAT-102, do not apply toward graduation at the University; however, the grades are figured into the grade-point average (GPA). The credits may be used to count in the twenty-four semester hours needed for transfer. Students may elect to complete additional credits at Kirkwood to fulfill half of the degree total (60).
ADMISSION REQUIREMENTS

To be eligible for admission to the College of Business Administration, students must have earned 60 semester hours of transferable course work which includes the six prerequisite courses: Calculus & Matrix Algebra for Business, Statistics for Business, Principles of Macroeconomics, Principles of Microeconomics, Introduction to Financial Accounting and Introduction to Managerial Accounting.

GRADE-POINT AVERAGE REQUIREMENTS FOR GUARANTEED ADMISSION

*A minimum grade-point average (GPA) of 2.75 on:
1) all college-level courses completed (cumulative)
2) all courses completed at The University of Iowa

Since these guidelines will change from time to time, the College of Business will provide information about the characteristics of the students admitted. This will permit those interested in the program to judge how they are progressing toward admission.

*In order to meet the fall deadline, transfer students will need to be admissible after spring grades – not summer grades – are entered. If you must use summer hours or grades to become admissible, you will not be admitted until spring semester in January.

All students admitted to the College of Business will be held to the second level of proficiency in a single foreign language (two years of high school foreign language or two semesters of college). The foreign language requirement must be completed prior to graduation.

FILE AN APPLICATION FOR ADMISSION AT 108 CALVIN HALL

By April 1 for summer or fall admission.
By November 1 for spring admission.
Application forms are available in W160 PBAB or 108 Calvin Hall.
Individual applications and records of those below 2.75 in any of the GPA categories will be reviewed to consider individual circumstances as well as grades in making admission decisions.

ACCOUNTING MAJORS: A 3.00 grade-point average is required for admission into the professional program in accounting. Grades of B- or higher are required in accounting courses. Students entering the professional program in accounting should have completed 6K:70, Computer Analysis; and 6E:71, Statistics for Strategy Problems (could be taken at Iowa after entering accounting program) by the semester in which they enter the program.
