CCCHST Update

The new site is ready to be tested. [http://www.kirkwood.edu/newccchst](http://www.kirkwood.edu/newccchst) It uses the same database that the old one uses so any changes made to the Data Reporting section will show up on the old one as well. Please test all the functions just remember to change or delete your changes since they will show up on the current site. Please let me know if anything is broken or needs changed.

When you are done testing the site let me know and I'll delete the old site and make the new one live.
