

Alternate Assignment for Observation Hours for Admission Fall 2022

We understand that obtaining clinical observation hours during the coronavirus pandemic is a challenge. If you have not been able to complete the 24 hours of clinical observation in 3 different settings, we ask that you do the following assignment. This is due March 1, 2022 and should be submitted along with the admission checklist and reference forms to the Allied Health office in room 2164 Linn Hall. If you have questions related to the admission process or alternative assignment, please contact Heather Niec at heather.niec@kirkwood.edu or Sarah Bran at sarah.bran@kirkwood.edu

- A. After watching all five videos type a single, one-page report (not one for each) about the videos. Include what you saw, discuss how these videos align with what you expected the career of PT to be, if your impression of PT has changed and if the experience has influenced your decision to become a PTA.
