

Automotive Collision Repair

Department: Industrial Technologies

Degree: Diploma

Entry time: Fall

Length: 1 year (2 semesters and 1 summer)

- Kirkwood's Automotive Collision Repair **one-year diploma** provides students a gateway entry-level opportunity into a competitive and rewarding career.
- The faculty utilizes the most current **I-CAR Professional Development Program curriculum**.
- Kirkwood provides one of the **best-equipped training labs** that includes two downdraft paint booths and four prep booths. All are equipped for refinishing the most current waterborne and solvent-based paints as well as frame laser measuring and pulling equipment.
- Kirkwood was the **first teaching institution in the nation** to acquire the **Snap-On Aluminum Dent Pulling Kit**.
- **Instructors** for the program continually update their knowledge on current trends and procedures by attending additional **I-CAR** training, clinics, seminars and trade shows.
- Students have consistently finished well in the annual **Skills USA competitions**, including many state champions and three second-place finishes **nationally**.

Program Description

Kirkwood's Automotive Collision Repair program teaches students the theory and practices of metal forming and shaping; body fillers, frame straightening and repair; uni-body straightening and repairs; refinishing procedures; paints and paint chemistry; and equipment use and care. Cost estimating and customer relations skills are also emphasized. A majority of class time is devoted to practical laboratory experience in the college's Auto Collision Repair Center.
